65. 'Twinning Cake' Normandy Cinnamon Pear Tart Recipe

Pâte Brisée

160g All-purpose flour, plus extra for rolling
½ tsp Salt
1½ tsp Sugar
112g Chilled unsalted butter, cut into ½" cubes
3-4 tablespoons iced (very cold) water

1. Place the flour, salt and sugar in a food processor and pulse until well combined.
2. Add the butter, half at a time. Pulse 8 times. Then add the other half of the butter and pulse 6 more times.
3. Slowly add two tablespoons of the iced water and pulse several times. Add more water slowly, a teaspoon at a time, pulsing several times after each addition, until the mixture just barely begins to clump together. If you pinch some of the crumbly dough and it holds together, it's ready, if not, add a little more water and pulse again. Try to keep the water to a minimum as too much water will make your crust tough.
4. Using your hands, press the crumbly dough together and shape into a disc. Do not over-knead. Sprinkle the disc with a little flour on all sides. Wrap and refrigerate for at least one hour.
5. Remove from the fridge and let rest for 10-15 minutes before rolling. Roll out the dough to 1/8" thick and use to line your tin.

Ingredients:

100g Sugar
500g Tin pears in syrup
60cl Fresh cream
3 Whole eggs
2 Egg yolks
Cinnamon powder

Spread the dough in the tin and prick the bottom with a fork.

Cut the pear halves into slices and arrange them on the dough.

Mix all the eggs and sugar, then add the cream and cinnamon to taste.

Pour it all over the pears.

Bake in a hot oven (180 degrees) for about 35 minutes.

Test with a knife to check it's done. If knife comes out clean it's done, if not prolong the cooking for a short while.

Hints and Tips on presenting your exhibits

This is not an exhaustive list, but a few tips which may help when presenting your exhibits. It is difficult to always present entries that are perfect, but don't be put off as we are all "in the same boat".

French/Runner Beans: Fresh pods, straight and same length – leaving a portion of the stalk on each.

Onions/Garlic: Uniform well ripened bulbs; avoid over skinning; wash roots and trim, leaving some on. Leave 7cms of stalk and bend over and tie or whip.

Potatoes: Same size – free from skin blemishes – wash gently.

Courgettes: Young tender shapely and uniform. Can be displayed with or without flowers on.

Tomatoes: Aim for uniform firm set of fruit with small eyes and firm fresh calyces (the small leaf like bit where the stalk joins the fruit).

Carrots: Straight uniform size, washed carefully – leaving on approx. 6–7cms of stalk.

Beetroot: Pick roots of even size, 6 – 8cms across, leaving on the tap root and approx. 7cms of stalk.

Marrow: Tender fruit around 30cms in length if possible

Cabbage: Solid head with no damage, remove only a minimum of outer discoloured leaves. Leaving approx. 7cm of stalk attached.

Fruit: Always leave stalks on.

Dahlias Roses: If one specimen bloom is required do not leave any buds on the stem, as these are also counted as blooms.

Jam/Marmalade & Jelly:

Jars should be clean and well filled to about 3mm from the top.

Covers wax circle with cellophane outer cover or twist top, which should be plain – not a commercial lid when showing.

Colour should be even, bright and characteristic of fruit used – no scum, mould, sugar crystals or foreign bodies.

Fruit should be evenly distributed and tender.

Consistency should be jellified, not runny or sticky.

Flavour should be full, fresh and characteristic of the fruit used

Pickles & Chutney:

Jars should be clean and filled to about ½ inch (12mm) from the top and labelled with contents and date of making.

Tops of jars must be vinegar resistant.
